

Step by step legal requirements to set up Mammography x-ray premises in Queensland.

1. Apply for Possession Licence (mammography) for the practice.
2. Submit a Radiation Safety and Protection Plan for mammography practice together with point 1. This is a comprehensive document that details your legal radiation obligation for safe use practice.
3. Submit Approval to Acquire form for X-ray apparatus. This form details the type of radiation apparatus you will be acquiring.
4. Shielding design for your mammography radiation premises.
5. Certificate of compliance PR100:2010 for your mammography premises (before use and every 5 years thereafter) after construction.
6. Certificate of compliance HR004:2010 for your mammography x-ray apparatus (before use and every 1 year thereafter) after installation.

Sieverts Radiation Consultancy is able to assist all the above to ensure highest radiation safety hygiene for your practice and meeting all legal requirements under the Qld Radiation Safety Act 1999.
