

9 steps to pass Qld Radiation Health onsite audit with flying colours

Cabinet x-ray systems used as inspection and security services will be audited by Qld Radiation Health on a random basis. The following points below will ensure your practice successfully pass the audit. Have the following documents ready for onsite audit.

1. Current possession licence for the types of radiation apparatus at your practice
2. Current radiation safety and protection plan(s) available on site for the types of radiation apparatus at your practice
3. Current use licence for every individual that initiate x-ray exposure (presses the button)
4. Current radiation safety officer certificate and fulfilling its functions documented
5. Current records of in house radiation training for all users
6. Current compliance certificates for each radiation apparatus (NM002) – yellow sticker
7. Records of personal radiation monitoring devices – if applicable
8. Record of radiation exposures made
9. Record of any radiation incident
